About Me

I am a web developer with an atypical background, thanks to which I have developed soft skills that are essential for this job. During my years in entrepreneurship, I have acquired excellent problem solving skills, organizational skills and customer service skills. I have always been passionate about computer science ,a passion I would love to turn into a full-time job.

Work Experience

Freelance Web-Developer
June 2021 - Current
-Designed and built sites using latest technologies such as NextJs and Gatsby.
 -Performed SEO analysis of companies to better rank on Google analytics.
 -Researched and improved overall sites interaction and design.

Full Stack Web-Developer Trainee
Boolean Carrers | November 2020 - April 2021

Highly practical 700-hour course in which I learned the LAMP stack by using it in building fully functional websites both independently and in group work, simulating a working environment, and developing the mindset appropriate to learn about other technologies and solve problems encountered in development.

Technologies used: Html, CSS, Bootstrap, Sass, Javascript, Jquery, Vue.js, Php, Laravel, Mysql.

Tools used: Git, GitKraken, Npm, Postman, Mamp, Phpmyadmin.

Manager
America Graffiti Pescara | November 2015 - January 2020

In my experience as a restaurant owner, I have been in charge of all the management operations of the restaurant:
-Personnel management (shifts, staff training, recruiting).
-Order and stock management.
-Cash management and payment transactions.
-Compliance with hygiene and safety standards.
-Record and organize customer complaints.
-Provide customer solutions.

Education
-Boolean Careers, Master Full-Stack Web Development
-Google It Supports Professional Certificate
-Hubspot Academy's Certifications(Content Marketing, Social Media Marketing, Email Marketing, Inbound Marketing)
-Graphic Design Specialization By Calarts on Coursera
-Scientific High School Diploma

Skills
-Web Development (Html, CSS, Sass, Javascript, Jquery,Vue.js, Php, Laravel, Mysql,React.js,Gatsby,Next.js)
-Soft skills (problem-solving, work organization, customer service)
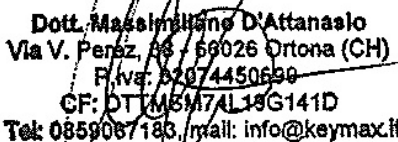

To all whom it concerns

This is to certify that Lucio Rendine has worked as a freelance front-end web developer for KEYMAX in Ortona, Italy from June 2021 to December 2021.

His duties and responsibilities as a front-end web developer are as follows:

-Writing well-designed, testable, efficient code using best software development practices.

-Creating website layouts/user interfaces using standard HTML/CSS practices.

-Display data from various back-end services and databases.

-Gather and refine specifications and requirements based on technical requirements.

-Create and maintain software documentation.

-Maintain, enhance and scale the website.

-Keep abreast of new technologies/industry trends and apply them to operations and activities.

Sincerely,

Massimiliano D'attanasio, owner of the agency
